Adjusto Shanks 14k Y or W Die Struck

Installation Instructions

1. Slide Adjusto Shank to the closed position.
2. Hold both shanks firmly against one another, preferably on a mandrel, and mark above the joint where to cut the shank. Cut the shank at an accurate angle and align with the Adjusto Shank. Then, solder the joint.
3. With the aid of a flexible shaft and appropriate selected wheels, shape the soldered joint to the same width as the applied shank.
4. Lightly buff both the inside and outside of the soldered part. The sliding action of the Adjusto Shank can be opened or closed very easily by the person wearing the ring.
5. Slide to full open position. Slip onto finger sideways...then turn setting upright. Slide shank closed for a firm and comfortable fit.

6-11001	3.4mm	Finger Sz 5-7	\$229
