N Cell Batteries (2 per card)
B90 \$6.42

Energizer has introduced an innovative cell chemistry that will bring you the best characteristics of both high drain and low drain systems into one battery type. Multi-drain batteries will work in any watch (high or low drain.) The new multi-drain batteries will allow you to reduce your inventory. You will now be able to replace any silver oxide battery on the market by stocking only 32 different types. The shelf life has now increased up to 7 years. That is up to a 40% improvement from before!

Benefits Include:

- Reduced inventory - Less battery types to stock to cover all types.
- Less inventory space
- Faster stock turnover
- Easier replenishment of stock
- Increased shelf life means less scrap

Look for more battery type changes coming throughout 2006.

Space Packs

Stores 4 times the batteries in the same space as tearstrips.
