

Digital Pocket Gauge

- LCD Display
- Metric / Inch changeover
- Locking Screw
- Measuring range : 0-25mm / 0-1"

T-654

Presidium Digital Gauge

- Solid state electronics
- Digital readout
- Harden Platform
- 0.01 mm Resolution
- Touch Button Zeroing
- mm/carat Conversion

T-832

Digital Gem Gauge

- Comes with case and gem weight estimating book.
- 0.01mm accuracy

T-716

Presidium Dial Gauge

- Measure up to 23mm
- <0.05 instrumental error
- Ring size measurement
- Direct carat reading
- Harden platform
- Easy 3 ways measurement

T-744

A-Source Gem Gauge

This gauge has a direct digital readout that eliminates errors. The digital display eliminates eye fatigue when measuring stones over prolonged periods.

Features:

- Solid state electronics 1/100mm accuracy
- Digital Readout
- Touch Button Zeroing
- Auto-magnetic shut-off that activates immediately when you place the gauge in it's carrying case.
- 1 year manufacturer warranty.

(Chrome casing, appears white due to reflection)

T-986

Stone & Mounting Gauge

This gauge has holes for measuring stones and extensions for gauging mountings. Carat sizes on one side and mm on the other.

T-931

Stone Pocket Gauge

This handy gauge helps size gemstones quickly and accurately. Ranges from 1pt to 2.1ct plus baguettes and marquise

T-932

Presidium Gem Computer Gauge

This gauge estimates the weight and identifies gemstones with much greater precision and consistency. It covers 74 gemstones and 9 different shapes. It has an auto-magnetic power-saving shut-off feature that activates immediately when the gauge is placed in it's carrying case.

- S.G. Dictionary allows you to retrieve the specific gravity of specific gemstones by entering the name of the gemstone.
- Gemstone Estimator helps identify unknown gemstone material by entering the measurement and weight.

Exclusive Features

- Direct carat conversion for round brilliant cut diamonds.
 - Harden Platform
 - 0.01mm Resolution
- Weight Computation through direct measurement or keypad entry.
 - Universal Serial Bus (USB) interface with computer.
 - CD-Rom dictionary with 133 gemstones.
 - 1 year Manufacturer Warranty

T-985

Multi Purpose Measuring Tool

- MM/Inch gauge with lanyard
- Measures up to 2" or 50mm • Measures finger size, ring size, stone size, inside and outside dimensions and thickness of items
- 3 3/8" x 2 1/8" indestructible yellow card with most diamond measurements.

T-661

Electronic Digital Caliper

- Digital LCD display
- Measures inside and outside in inches and mm
- Accurate to .01mm / .001 inches
- Auto shutoff

T-662

Mizar Gold Tester

The M18A9 electronic gold tester precisely determines gold karat values equal to or greater than 9K, 10K, 12K, 14K and 18K. Fully portable, battery operated with a low battery indication function. Two year warranty.

T-871

Replacement Chemical T-872
6 month shelf life after opening.

Sliding Brass mm Gauge

Gives inside and outside measurements in mm. Capacity is 80mm or 3 1/4" with a .1mm vernier for more accurate measuring. Made in Germany.

T-504

Sliding Plastic mm Gauge

4" Plastic
T-952

New

Metal Detector

This hand held metal detector is great for detecting dropped items on and around the bench. Helps cut down on time searching for lost items. It detects both ferrous and non-ferrous metals. It is also great for locating metal objects in hiding places on persons, luggage, mail and parcel consignments, walls, hollow spaces and in the soil.

New

T-905

Ceres Moissanite Tester

Manufacturers Lifetime Limited Warranty
Includes diamond scribe. AC plug-in operation only. Retractable, spring loaded, durable tip. Immediate recovery - no waiting between tests. Audible beep and visual yellow light when Moissanite is detected. 1 year manufacturers warranty.

T-619

Dual Diamond/Moissanite Tester

- Retractable tip to ensure accuracy and consistent pressure between the measuring probe & gemstone
- No waiting time between tests
- Clear LED display for diamond, Moissanite, Simulants & Metals
- Built in metal detector
- Low battery indicator
- Powered by 3 AAA batteries or optional AC120/230V adapter (T743)
- Automatic power down

T-742

A/C Adapter for Tester T-743

New

Mizar Diamond Detective

This tester is simple but precise. It provides a quick yes/no reading. Test loose or mounted stones in rapid succession. A green light will appear for diamond and nothing happens with simulants. Metal warning buzzer alert. 7 second warm up with 150 second shut-off alarm. 2 year Limited Warranty

T-1007

Ceres Czeckpoint Diamond Tester

Manufacturers Lifetime Limited Warranty
Metal warning buzzer. Audible and visual genuine diamond indicator. Replaceable nickel cadmium batteries. 10 day trial period. Made in the U.S.A.

T-612

Diamondnite Dual Tester

A diamond and moissanite tester that offers the ease and convenience of accuracy all in one tool. One touch to your stone and you will know in seconds if your stone is diamond, moissanite or simulant. Operates on 9 volt battery.

T-652

GemOro Elite Series Microscope

- 10x & 30X microscope
- Optional overhead light available (T-836)
- Superior Japanese optics
- True professional Darkfield/Brightfield illumination with "Sliding Baffle"
- Adjustable "Iris Diaphragm" controls the width of the lower light
- Internationally adaptable voltage 120v/ 240v
- 360 degree rotating head
- Comfort Eye Guards
- Dust cover
- Five year Mechanical Warranty
- Two year Electrical Warranty

T-835

GemOro

Optional Overhead Light Source for T-835 Microscope

Fluorescent Overhead Light Source with "Daylight Tubes."
Attaches to the base of T-835

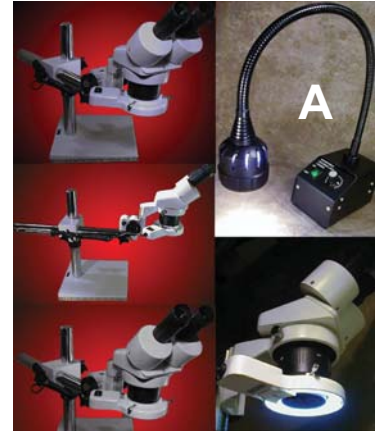

T-836

Features:

- * Eye tubes inclined at 45 degrees.
- * Viewing head can be rotated through 360 degrees.
- * Binocular design adjustable inter-pupillary distance of 50mm to 70mm.
- * Diopter Adjustment for the eyes.
- * Achromatic coated adjustments.
- * 110V fluorescent 10w ring light with on/off rocker switch and 1 spare bulb.
- * Dust Cover and Lens Tissue
- * Dual Magnification (10x, 30x)
- * 5 Year Warranty

T-891

New

Microscope Auxiliary Illuminating System

Designed to function with Stereo & Boom microscopes as an illuminating light source. The 23" flexible gooseneck support permits a variety of lighting options for the engraver, wax carver, stone setter, watch maker, etc. Features a variable halogen control. 27" high when fully extended.

See letter "A" in Photo

Order T-891L

GemOro Refractometer

Our GemOro Refractometer is the professional quality and choice used by gemologists worldwide. It features a large, easy viewing lens and superior Schott LASF hemicylinder for increased scratch resistance. It includes a Mini-Maglite flashlight for portable light source, m 1.80 Certified (R.I.) Refractive index liquid and monochromatic filter.

T-924

New

Refractometer Liquid

Series m1.80 certified (R.I.) Refractive index liquid.

Contains 10 grams

T-916

New

Stoneperfect Gem Holder

This is believed to be the best gem holder available, and is priced far lower than many inferior models.

- Black jaws of non-glare glass-filled nylon have surface tack and serrations to hold stones securely.
- Jaws do not cover the girdle of stones.
- Jaws turn on axis so stone stays in the user's field of view when being rotated.
- Comes with an adapter so it can be fitted to any microscope, although it fits 80% of microscopes right out of the package.

T-993

GemOro Polariscope

This portable gemological tool visually shows if a gemstone is doubly or singularly refractive.

It is also used for identifying moissanite and detecting strain in diamonds. It has a precision, high quality glass lens, as opposed to a plastic lens. Battery operated and includes a Mini-Maglite source and batteries

New

T-926

New

Calcite Dichroscope

This handheld gemological tool shows whether or not a stone is dichroic (reflecting 2 colors) and is helpful in gemstone identification.

It is made with calcite for long lasting use. Includes protective carrying case.

T-915

New

Chelsea Filter

Used for identifying certain red, blue and green gemstones. It is used to determine whether a gemstone is natural or synthetic. It can also be used for identifying blue spinel as well as for detecting dyes in certain gemstones.

T-914

Presidium Gem Tester

Aids in determining between diamonds and synthetic stones. In addition, it can be used to distinguish between natural gem stones such as sapphires, rubies, emeralds, garnets and their less valuable look-alikes such as topaz, spinel, citrine and tourmaline. Easy to operate, Lightweight and portable. Requires two AA 1.5V batteries (not included) Solid state probe pen requires no warm-up time between tests.

1 year factory warranty

T-814

10x Stone Viewer

This product is one of the most functional sales tools for retailers of diamonds and gemstones developed. It makes it easy to show loose or mounted stones to customers. It eliminates the need for your customer to have to try to hold a loupe and tweezers to view stones. Made of 3/16" lucite for strength and clarity, light can come through from all angles to illuminate the stone. It features a high quality 10x triplet lens and a gem holder. A removable black dot acts in much the same way as a dark-field. The stone can be rotated 360° to be viewed at all angles. Focusing is achieved by moving the gem holder up or down. Made in America. Patent DES 357,694

T-906

New

Inspection Lamp

Illuminated magnifier provides hands-free viewing. Magnification of 1.75x. Adjustable arm provides light source quickly and efficiently to work area. Convenient clamp is suitable for workbench or desktop. White in color and of metal construction. Comes supplied with a 22 watt circline fluorescent bulb.

T-904

Duoview Darkfield Loupe T-709

- Dual 21mm "focusing" Gemoro Hastings Triplet lenses
- Illuminated darkfield/brightfield
- Built in gem clip
- Features a 20x side lens and a 10x top lens
- Includes 2-AA alkaline batteries and a protective carrying case

- Identifies:
- Fractured filled stones
 - Doubly refractive moissanite
 - Reads girdle inscriptions and more

New

Lintless Diamond & Gem Cloths

These 10"x10" cloths are made of microfiber which provides maximum softness for cleaning diamonds & gemstones. A great value which makes them great for re-sale.
