**Zeiss Professional Loupe 10x**

Pocket magnifier for the professional. Aplanatic and achromatic design of the lens system provides a field of view that is free of chromatic aberrations and distortion in the peripheral zone. It also has an anti-reflective coating for glare reduction.

**T-748**

**10x Precision Swarovski™ Loupe**

This high-precision 10x magnifying glass is made by Swarovski Optik™, who is one of the leading European makers of high quality optical instruments.

It has an optical design that is tilt insensitive.

All optical surfaces are given a high-quality coating to ensure a high-contrast image with perfect color fidelity.

**T-890**

**Nikon Professional Loupe 10x**

Peerless clarity and unrivaled optical quality from the world leader in optics. Compound lenses deliver a distinct magnified image with no color distortion. Images are as sharp at the edges as they are at the center.

**T-749**

**Doublet Loupes**  
**T-856** 15mm 10x Chrome  
**T-857** 14mm 10x Chrome

**Doublet Loupes**  
 23mm 10x Chrome  
**T-858**

**10x Economy Triplet**

This is an inexpensive loupe that has an 18mm lens with a 21mm body. Chrome Finish

**T-945**

**12.5mm Oval Chrome Loupe**  
 14x Hastings Triplet  
**T-750**

**Watchmakers Loupe**  
 5x Loupe  
**BT-6**

**Coddington 20x, 12.5mm Loupe**

This triplet features three separate lenses bonded together to provide the optimum in color corrected, distortion free magnification. Superior precision edging reduces lens edge distortion. Each loupe comes with a carrying case.

**T-888**

*Loupes*

**21mm, 10x lighted Loupe**

**New**

This handy tool is great for viewing stones, jewelry or other items under super bright LED illumination.

This portable tool uses a high quality 10x, 21mm magnifier lens with a built-in LED light source. It includes a carrying case, batteries and screwdriver.

**T-922**

**New**

**Corrected LED Lighted Loupes**

Powerful LED light source with the finest optics available. Achromatic-Aplantic Triplet Lens.

A "Must Have" for every jewelry store, diamond/gemstone dealer, jewelry appraiser, jeweler, watch maker, collector and/or hobbyist/craftsman.

Batteries Included (replace with B399)

**T-1011 ...10x**

**T-1030 ...14x**

**T-1031 ...20x**

**New**

**8x LumiGauge® Loupe**

This handheld gemological tool features quality 8x magnification with bright illumination and a built-in precision 0.01mm measuring gauge. Includes batteries.

**T-923**

**Illuminated B & L Coddington Loupe**

A combined 10x magnifier and light source. Illuminates the object being viewed through the lens. Uses two AA batteries (not included). Overall length is 5 3/4". Focal distance is 1" and the lens diameter is 19.75mm.

**T-813**

**Duoview Darkfield Loupe**

**T-709**

- Dual 21mm "focusing" Gemoro Hastings Triplet lenses
- Illuminated darkfield/brightfield
- Built in gem clip
- Features a 20x side lens and a 10x top lens
- Includes 2-AA alkaline batteries and a protective carrying case

Identifies:

- Fractured filled stones
- Doubly refractive moissanite
- Reads girdle inscriptions and more

# Hearts & Arrows New

*The finest cut round brilliant diamonds, with their perfect symmetry and beauty, display a unique optical pattern when viewed through this special scope. Place the diamond table up on it's base and you will see 8 arrows and when placed table down, you will see 8 hearts all symmetrically positioned in the reflected pattern viewed through the scope. This scope can be used as a buying tool as well as a selling tool.*

**Scope with Standard Base**  
Silver colored scope may be used on loose or mounted diamonds and includes a round black colored viewing base. Also included are a blue and red reflective symmetry inserts and a carrying pouch.

**T-908**

**Pocket Scope with Round Base**

Small, pocket sized scope has a blue reflective symmetry pattern and can be used on loose or mounted diamonds. Includes a small round viewing base and keychain. This economical scope is perfect as a free gift premium with purchase of an H&A diamond.

**T-910**

**Heart Shaped Acrylic Base**  
This heart shaped acrylic base has two removable standard round bases for use with our H&A scope and is used for viewing loose diamonds.

**T-909**

**Head Magnifiers**

New

These low priced magnifiers are quality constructed. A unique scratch coating is applied to the optical quality acrylic lenses to resist abrasion. Comes with a rubber head band and has an easy to adjust velcro closure. Available in 3 magnifications.

**T-946 ... 1.75x Power / 14" Focal Length**

**T-947 ... 2.25x Power / 8" Focal Length**

**T-948 ... 2.75x Power / 6" Focal Length**

**Three Lens Multi-Magnifier**

New

This magnifier has three lenses. One binocular lens, a second binocular lens behind the first that flips up, and a pivoting loupe. By using different combinations of these

lenses, 4 magnifications are possible:

1.8x, 2.3x, 3.7x and 4.8x.

Velcro type head band.

**T-949**

**Genuine Optivisor**

Lenses are made of the highest quality optical glass.

Leather lined headband for years of comfort.

Lens #5, Magnification 2.5x at 8"

**T-634**

**Optivisor® Replacement Lenses**

Part #	Description	Magnification
T-634L1.5	Optivisor #2	1 1/2x at 20"
T-634L1.75	Optivisor #3	1 3/4x at 14"
