**Xuron
Maxi-Shear Flush Cutter
T-902**

Maxi-Shear Flush Cutter - A large durable and strong shear ideal for use in a variety of cutting situations. Delivers a clean, square cut with minimal effort while our Light Touch™ return spring speeds work. Head shape allows excellent sight lines to increase precision. Cushioned, Xuro-Rubber™ grips add comfort during extended work periods. Glare eliminating finish reduces eye strain. Rated for cutting everything from delicate materials less than 1mm thick up to 16 AWG copper wire.

HWAC Shear
T-903**

New

HWAC Shear

HWAC stands for hard wire and cable. The HWAC is rated for hardened wire, music wire, memory wire and throttle cable. It does not require any special cutting technique.

This is an ideal tool for crafters who need to cut a wide variety of materials. Use our HWAC cutter like any cutter. Cutting effort is minimal due to the tools shearing action.

Cushioned Xuro-Rubber™ grips for comfort and Light Touch™ spring action returns HWAC to its open position.

Bead Knotting Pliers

This slim (3/16 x 1/8" at hinge pin) and ultra light plier offers precise control.

Appealing box joint construction, stainless steel and curved comfort designed cushioned handle.

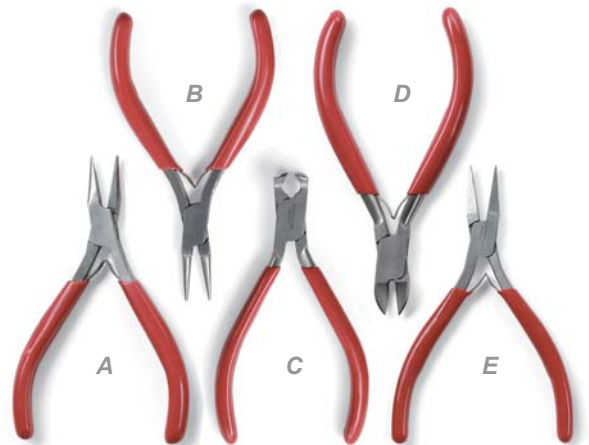

T-625

Split Ring Pliers

A much needed tool that opens split rings easily.

T-624

Economy Pliers 4 1/2"

- A. Chain Nose T-517A
- B. Round Nose T-517B
- C. SemiFlush End Cutter T-517C
- D. SemiFlush Side Cutter T-517D
- E. Flat Nose T-517E

Round Concave

To make sharp loops and bends in wire and metal. Designed for jump rings and other small rings.

Flat Nose / Half Round

For bending and shaping flat metal and wire.

Round / Flat Nose

For looping wire or flat strips of metal.

Concave / Convex

Made for bending and holding rings and are perfectly smooth to protect soft metals.

Forming Plier 4 Piece Set

This set of forming-shaping pliers is a great value for the price. Includes four, 5" pliers which all have box joints and textured grips.

T-957

New

New

Superfit® Pliers

Parallel action applies equal pressure on both sides of a shank to evenly bend rings to shape. An ideal tool for performing quick and easy SuperFit tension adjustments in house. Increases/Decreases tension with ease and will not twist or torque the shank. Special alloy prevents marring the surface of precious metals. A great bending plier for any jewelers bench.

T-921

New

Carbide Insert Side Cutters

An ingeniously designed cutter, with carbide inserts in the jaws, for cutting hard wire. Equipped with PVC grips and leaf springs.

Stainless Steel

T-954 ... 7/16" cut length

T-955 ... 1/2" cut length

**5" Watch Link Removing Pliers
BT-23**

Plier & Tool Rack

Made of clear lucite. The rack helps keep tools off the bench and easy to find. Rack is over 10 inches long and features holes for needle files, burs and other tools. Gives you more bench space and speeds up work because you spend less time looking for the right tool.

Ring Cutting Pliers
This tool is made to cut with a minimum of discomfort and effort. The blade is hardened alloy and completely enclosed on the cutting side.
Pliers T-697
Extra Blade T-698

Micro Beading Shear
Perfect for cutting bead cord or thread snipping. Well tempered with very sharp edges. Reflex action makes light work fast and easy.
T-691

Bow Opening Plier
For opening bows or stretching bows and links. Reverse action pliers open when the handles are squeezed. Has ridges to keep the bow in place. Stainless Steel construction. Measures 5 1/2" long overall
T-956

Bow Closing Plier
Used to bend and shape shanks, wire and sheet.
T-737

Bead Crimping Pliers
These low cost crimpers provide a smooth, unobtrusive crimp. If desired, the finished crimp can be hidden in a clam type bead tip or slipped into a large hole bead. Works well with either round or tube crimps. Each plier is 5 1/8" in length.
Regular T-689

Micro Crimper for smaller crimps
T-690

Euro Crimping Pliers
The EuroCrimper™ has two forming cavities for round, tube and combination crimps of slightly varying sizes. True ergonomic handles give you a great grip because they are made from sanoprene

– a special compound –
with excellent surface tack.

Like our other patented crimpers, EuroCrimper™ jaws are precision machined for years of service and beautiful results every time. With a little practice, you'll be able to match the right cavity with the right crimp every time.
