

### Diamond Paperweight

Perfect for holding stone papers while sorting or packing. This folding paperweight opens to a 5 1/2" x 6" and folds down to a compact 4" 3/4 x 1/4"

**T-876**

### Stone Seller

A handy aide for showing the size of brilliant cut stones. There are ten separate sizes and they are shown with cubic zirconias. Each one has the size and carat weight stamped on the arm. The sizes are from .10 up to 2ct. Folded length 4 1/4"

**T-875**

### 10x Stone Viewer

This product is one of the most functional sales tools for retailers of diamonds and gemstones developed. It makes it easy to show loose or mounted stones to customers. It eliminates the need for your customer to have to try to hold a loupe and tweezers to view stones. Made of 3/16" lucite for strength and clarity, light can come through from all angles to illuminate the stone. It features a high quality 10x triplet lens and a gem holder. A removable black dot acts in much the same way as a darkfield. The stone can be rotated 360° to be viewed at all angles. Focusing is achieved by moving the gem holder up or down. Made in America.

Patent DES 357,694

**T-906**

### 10 Stone Cz Master Set

This set gives you the ability to easily grade diamonds. Each stone is expertly graded to master diamond color standards using the standard GIA grading scale.

To easily identify the color grade and to help re-sort the stones, the color is laser inscribed on the table for easy viewing with a 10x loupe.

- The largest range of reference available: E, F, G, H, I, J, K, L, M and N comparison stones.
- Simulated white and yellow gold tiffany stone holding display ring for comparing mounted stones included.
  - Protective carrying pouch.
  - Manufacturers limited lifetime warranty against color change.
  - Made in the USA • Patents pending.
