### New GemOro® Reflectivity Meter

- Digital refractometer / reflectivity meter
- Accurately measures light reflected through a loose or mounted stone and gives you an instant reading of its "reflective index." It can verify the index of every uncoated stone for instant identification. includes a built in reference Reflectivity Chart which closely correlates to the refractive index noting the most common stones: Synthetic Spinel, Synthetic Sapphire, YAG, High Zircon, GGG, Cubic Zirconia, Strontium Titanate, Diamond and Synthetic Moissanite. Operates on 9 Volt Alkaline Battery. (Not Included)
- Optional A/C adaptor sold separately.

Order# T-887...\$195.50
